

## **Wing Grant Committee**

The Wing Grant Committee reviews all subordinate unit and wing staff section requests for funding using any form of grant application: public, private, governmental.

This process is employed to determine if the request, is IAW with CAP's mission guidelines, is authorized by applicable CAPRs, and does not conflict with existing programs or other pending requests.

Grant request must include a brief description/spending plan of equipment, services, and/or programs to be funded, including total dollar amount, plus the name/institution, and address of the donor. If there is a filing deadline, please include in the transmittal.

If all requirements are met and the committee concurs, the requesting unit will receive an approval letter from the wing commander.

**All requests are to be e-mailed to the committee at [nywg.grants.committee@nywcap.org](mailto:nywg.grants.committee@nywcap.org)**

Do not send requests to individual committee members or use USPS.
